

# IsoTek® | DISCOVERY

## BEGIN YOUR JOURNEY

Discover IsoTek's award-winning range of power conditioning systems developed to improve, enhance and protect the sensitive audio components you own. Power is the first input to any home entertainment system; it flows through the system, used by each component in turn to create the signal that moves the speakers' drive units and delivers the pixels on the screen. What we see and hear is fashioned from, and by, mains electricity – it's the 'raw material' from which the 'art' is created.

The Discovery range offers an affordable way to not only protect your investment from dangerous power surges and voltage spikes, but also to guarantee the best possible performance whenever you listen.

## EV03 CORVUS

Available Q4 2016

Corvus is an evolution of IsoTek's award winning Polaris design, reconfigured to feature 9 output sockets and increased wattage. It is a cost effective upgrade to any audio or audio-visual system, delivering improved performance, protection as well as being great value for money.

- Removes Common Mode and Differential Mode mains noise.
- RFI reduction 30dB.
- Independent outlets stop Differential Mode cross contamination.
- Unique delta filter topology improves product performance.
- 13,500A of instantaneous protection, featuring IsoTek's unique sequential protection system.
- Internal wiring; multi-strand silver plated OFC with PTFE dielectric.
- Maximum continuous power 3,680W.
- Available in UK, EU, US, AU, CH and ZA sockets.
- Supplied with IsoTek EV03 Premier power cable.

"IsoTek's multi award winning Polaris has been expanded to give greater power with more clean power outlets. This new design also includes a simple wall mounting system. High quality power at an affordable price."
