

ADVANCE YOUR ENTERTAINMENT

V4A

RX-V4A

Enter the world of home theatre with the V4A. This AV receiver will completely transform how you listen and watch at home. Plus, plenty of features means plenty of choices on how to enjoy your entertainment.

UNPARALLELED SOUND

/Cinema DSP 3D
/Music Enhancer
/High Slew Rate Amplifier

MOVIES AND GAMES LIKE NEVER BEFORE

/HDR 10+, 8K/60 Hz and 4K/120 Hz*
/Gaming-dedicated functions (ALLM,VRR,QMS,QFT)*
/Multiple 8K Compatible HDMI Inputs*

SIMPLE TO SET UP, SIMPLE TO USE

/AV Setup Guide App
/MusicCast APP
/Voice control with Alexa and Google Assistant devices or Siri via Airplay 2. *availability varies by region

MADE FOR YOUR ROOM

/YPAO™
/Wireless Rear Speaker compatible
/Brand new design

*Available via FW update

RX-V4A SPECIFICATION

Amplifier Section	Channel	5.2
	Rated Output Power (1kHz, 1ch driven)	115W (6 ohms, 0.9% THD)
	Rated Output Power (20Hz-20kHz, 2ch driven)	80 W (8 ohms, 0.06% THD)
General	High Slew Rate Amplifier	Yes
	Standby Power Consumption (IR only)	0.1W
	Dimensions (W x H x D)	435W x 171H x 377D mm With antenna up: 435W x 245H x 377D mm
Connectivity	Weight	8.8kg
	MusicCast Surround	Yes
	HDMI Input/Output	4 / 1
	HDMI 8K/60Hz support	4 / 1
	HDMI CEC	Yes
	USB Input	Yes
	Network Port	Yes
	Wi-Fi	Yes (2.4 / 5 GHz)
	AirPlay2	Yes
	Bluetooth	Yes (SBC / AAC)
	Front Input	USB
	Digital Audio Input/Output: Optical	1 / 0
	Digital Audio Input/Output: Coaxial	1 / 0
	Analog Audio Input/Output	3 / 0
	Phono Input	N/A
	Component Video Input/Output	N/A
	Composite Video Input/Output	N/A
	Preout	0.2-ch (Mono Sub woofer x 2)
	Headphone Output	1

HDR10+, 8K/60Hz, 4K/120Hz*

HDR10+ signals not only enables dynamic video content created on a scene-by-scene basis, it also carries a series of embedded pieces of 'metadata', that helps to detail the scenes actual light and dark characteristics ensuring that the most critically fine detail can remain.

Supports end-to-end 8K/4K resolutions and higher refresh rate solutions with a single upgraded cable for seamless integration within the HDMI eco-system.

4K/120Hz enables ultra-fast motion UHD images to be crisp and razor sharp; allowing for incredible levels of performance when enjoying sports, action movies and video games.

Gaming-dedicated Function*

Enhanced gaming and media features ensure an added level of smooth and seamless motion and transitions for gaming, movies and video. These include:

Auto Low Latency Mode (ALLM) to enable the ideal latency setting to automatically be set allowing for smooth, lag-free and uninterrupted viewing and interactivity.

Variable Refresh Rate (VRR) reduces lag, stutter and frame tearing for more fluid and detailed game play.

CINEMA DSP 3D for Movie, Music and Game

This unique Yamaha proprietary sound field creation technology, was created by combining measured sound field data with digital signal processing. By digitizing this vast trove of information and incorporating it into dedicated LSI devices, it effectively reproduces the spaces of concert halls and music clubs in your home. Immerse yourself in the astounding realism of your movies, and enter a world of profound theatre sound.

Compressed Music Enhancer

When music is encoded into a digitally compressed format like MP3, the frequency response suffers. Yamaha's Compressed Music Enhancer employs sophisticated digital signal processing using exclusive algorithms to restore what was lost, so the music always sounds the way it should.

Advantage of High Slew Rate Amplifier

Generates highly precise signal transmission, and ensures faithful and accurate reproduction of the source making it especially suitable for high resolution audio signals. Yamaha's newly designed circuit achieves both high slew rate and stable signal transmission.

Slew Rate: The rate of how quickly an amplifier can respond to a rapid change of input level.

YPAO™

YPAO (Yamaha Parametric room Acoustic Optimizer) analyses the room acoustics and your system, then precisely adjusts various audio parameters to provide the best sound for your room.

Simply by placing the supplied microphone at your listening position and switching YPAO on, the system is automatically calibrated for optimum performance in your specific room and speaker configuration.

Wireless Rear Speaker

Combine this AV receiver with the MusicCast 50 or MusicCast 20 wireless streaming speaker and enjoy the amazing convenience of creating a home theatre with wireless surround sound. What's more, you get stunningly realistic sound with a clean, clutter-free setup.

Back Panel (European Model)

This AV Receiver is compatible with AirPlay 2. iOS 11.4 or later is required. Use of the Works with Apple badge means that an accessory has been designed to work specifically with the technology identified in the badge and has been certified by the developer to meet Apple performance standards.
