

YAS-306

Designed for dynamic movie sound while not physically imposing itself on the room, the YAS-306 delivers sophisticated technology from a low-profile form. Combine the powerful, user-friendly MusicCast app and can enjoy multi-room audio in your home.

- * MusicCast app for control and syncing with a whole home audio solution
- * Subwoofer connectivity via subwoofer pre-out
- * Dolby and DTS audio format capability
- * Supports 192 kHz/24-bit high-resolution music including FLAC/WAV/AIFF
- * Built-in subwoofer x 2 + bass reflex port x 2 for deeper bass
- * Clear Voice makes dialogue easier to hear
- * Compressed Music Enhancer with Bluetooth sources
- * Wireless music streaming from Bluetooth devices
- * Bluetooth output for wireless streaming to other Bluetooth speakers
- * Airplay, DLNA, vTuner internet radio, Tidal, Deezer and Spotify Connect
- * RCA / Optical / Digital coaxial inputs

Easy to wall mount vertically or if you choose, the YAS-306 can be positioned flat on a cabinet

Remote learning function and IR repeater system for ease of use and placement
